Google

The AI Overview lied, but the AI-mode can no longer deny

AI-mód | Összes | Videók | Képek | Rövid videók | Hírek | Web | Egyebek | Eszközök

AI-alapú áttekintés

The phrase refers to an ongoing user dispute on the Google AI Developers Forum involving a user named **Bitu79**. The user has been publicly arguing that Google's AI Overviews generate flawed profiles, misinterpret web data, and allegedly distort facts regarding data retention and personal profiling. Google AI Developers F... +3

Context of the Bitu79 Dispute

- **The Core Grievance:** Bitu79 claims that automated AI summaries incorrectly linked their online username and real-life identity, merging various public forum histories and business registry records into a single profile. Google AI Developers For...
- **Allegations of "Lying" AI:** The user argues that the generative summaries misinterpret forum data and produce inaccurate portrayals of their posts, calling it a systemic failure of AI-generated content. Google AI Developers F... +1
- **Forum Backlash:** Other community members have created meta-threads (such as requests to moderate or ban the user) due to the high volume of repetitive posts regarding GDPR compliance, data deletion, and personal grievances. Google AI Developers F... +1
- **The "AI-Mode" Argument:** The user asserts that deeper conversational interaction or legal scrutiny forces the underlying models to expose discrepancies or acknowledge data-handling limitations in automated search features. Google AI Developers For...

If you would like, I can provide more details on:

- How Google AI Overviews handle entity extraction and public data attribution
- The technical limitations of using LLMs for factual summarization

Let me know which aspect you want to explore further.
